## EDUCATION

### Computer Science Engineer

Universite Mohammed Cherif Messaidia  
2018 – 2023

### Master 2 in Web and AI

Universite Mohammed Cherif Messaidia  
2021– 2023

## SKILLS

- **Data Analysis** : Python :Numpy , Matplotlib , Seaborn , Pandas
- **Maching Learning** : Python : Numpy , Scikit-Learn , TensorFlow ..
- **Computer Vision**: Matlab,Python : OpenCv,YoLo
- **Web Development** :  
Front end : Html,css,js,Bootstap ,React ..  
Back end : Php , Node js , Python ,  
Laravel ,Express ,Golang
- **Mobile Develpoment** :Android Studio , Flutter
- **Web Scraping** : BeautifulSoup , Selenium , Scrapy ,Re
- **Databases** : Mysql , Oracl , PostgreSQL MongoDB
- **UNIT TESTING** : Jest ,Pytest
- **Others** : C , C++ , Dart , Java , GoLang, Git/Github , Bash

## PROJECTS

### Graduation Project 2021

#### Mobile APP for Special Needs Kids

- An application programmed using Flutter, directed at children with Down Syndrome and others. Its goal is to help this group learn by targeting the different sensory organs and coordinating between them and the brain through an easy method that depends on dragging cards to their appropriate place, as well as recognizing things by sound, image, and writing.

### Graduation Project 2023

#### Car-Service :Book Car Maintenance App Base on ML

- A mobile application for managing car maintenance books ,Based on artificial intelligence through a recommendation system that provides advice on regular maintenance that must be performed ,the purpose of this application is to extend the life of the car, reduce the cost of car maintenance, and improve the general safety of the roads.

### Mobile Application Develompent

#### Flutter Chat App using Node js

#### Flutter Payment App using Laravel

#### Flutter Video Player App

#### Flutter Task Management App With GoLang

### Web Develompent

online Shop using Node js ,Express ,MongoDB

Chat App using Node js

Ecommerce Website Using Php

#### Full Stack Twitter Clone with Mern

Multi-player Game with WebSockets

Prayer Times Website using React js

...Other Mern Stack Projects

## **Maching Learning**

**Recommendation System using Python**

**Predict MVP NBA Player using Python**

**Other Prediction Projects**

## **Computer Vision**

**Wavelet Image Watermarking using DWT**

**Face Detection and Object Classification  
Using Python**

**Object Detection Using Python**

## **EXPERIENCE**

---

### **Freelance**

2023 - 2024

**System Administrator**

### **EETRAH**

mai 2024 - now

## **LANGUAGES**

---

**English**

**French**

**Arabic**
